

Turkey, mince pies, presents... prescriptions

For people living with long-term conditions like Parkinson's, prescription charges are another item they must budget for this Christmas.

The Prescription Charges Coalition survey showed that 67% of people with long-term conditions have not collected a prescription due to cost. Many people skip and reduce doses because they simply cannot afford the cost of the prescription.

The Medical Exemption List will be 50 Years old in June 2018. We are calling on the government to update the list to include all long-term conditions.
